

## ADVANTAGES

- Complete interchangeable diffusion front plates range
- Robust fully welded construction for durable reliability and tightness
- High corrosion protection against decontamination agents
- Toolless filter clamping 100% secured and immediate
- Built-in filter scaling option
- Quick front plate locking for immediate access to the filter

<b>Application</b>	Turbulent airflow in clean rooms and other controlled environments with ISO 14644-3 filter testing requirements, for ceiling installation.
<b>Installation Options</b>	Universal mounting system for both suspended installation and compression mounting.
<b>Comment</b>	<p>Construction: Steel, fully welded                      Finish: Decontamination resistant double-layer powder coat                      Standard color RAL 9010 (SW) or custom RAL                      Option: Stainless steel SS 304 (S4) or SS 316L (S6)                      Filter Gaskets: PU or GEL                      Filters PU: MEGALAM MD(66mm)/(78mm)/MX(90mm)/MG(110mm)                      Filters GEL: MEGALAM MD(71mm)/MX(105mm)/MG(115mm)                      Control equipment: Room side accessible upstream pressure port concentration port and aerosol injection, plus +/- secondary ports for remote dp reading.                      For more information about compatible filters and air diffuser front plates, see the relevant product pages                      Option: Damper, adjustable from the room</p>
